Does the Census have Current Data on America?

Census Information

- **American Factfinder** ([http://factfinder.census.gov/](http://factfinder.census.gov/)) This is the Census Bureau’s web site for census data. It contains datasets from the 1990 and 2000 censuses, Annual Population Estimates and the American Community Survey.

- **American Community Survey** ([http://www.census.gov/acs/www/index.html](http://www.census.gov/acs/www/index.html)) This is the home page for the American Community Survey where you can find out information on the latest releases, methodology, and some basic guides.

- **Guide to Census Information by Year** ([http://ucblibraries.colorado.edu/govpubs/gd/census.htm](http://ucblibraries.colorado.edu/govpubs/gd/census.htm)) While this session is on the current data from the Census, this page links to all of the census materials in the library on the United States going back to 1790. So if you want the historical stuff, check this page out.

- **Current Population Survey** ([http://www.census.gov/cps/](http://www.census.gov/cps/)) The current population survey is a monthly survey of 50,000 households in the United States. It has been conducted for over 50 years. This page links to some of the annual reports, as access to the Public use microdata sample files.
