Census Information

- **American Factfinder** (<http://factfinder.census.gov/>) This is the Census Bureau's web site for census data. It contains datasets from the 1990 and 2000 censuses and the American Community Survey.
- **Census CDs** (<http://ucblibraries.colorado.edu/govpubs/lan/census.htm>) This is a list of all the CDs available on the computers in the Government Publications Library. We have more CD-ROMs dealing with the Census, the call numbers which can be found using Chinook, CU's online catalog (<http://libraries.colorado.edu>).
- **Historical Census Browser** (<http://fisher.lib.virginia.edu/collections/stats/histcensus/index.html>) This database contains data from the 1790-1960 censuses. For a look at paper and electronic Census titles at CU, check out the census guide at: <http://ucblibraries.colorado.edu/govpubs/gd/census.htm>
