

Libraries Information Technology Department Media Services and Support

Media Duplication and Conversion Services

Fee-based audio and video duplication and digital conversion services for campus departments, faculty members, students, and general patrons:

<http://ucblibraries.colorado.edu/systems/mediaservices/index.htm>

Media Encoding for Libraries Streaming Media Pilot

IT Media Services provides streaming media file creation and encoding for faculty course reserves. Course reserve video streaming via Chinook is a collaborative pilot project of the Libraries Access Services Reserves Unit, The Libraries Information Technology Department (Web Services and Media Services Units), and other campus departments, including ASSETT and ALTEC.

Libraries Audiovisual Equipment Support

Audiovisual equipment checkouts for library users

Portable audiocassette recorders, projectors & screens, and portable microfiche readers are self-bookable in Chinook and available from the Norlin Library Circulation Desk.

<http://ucblibraries.colorado.edu/accessservices/reserveavequipment.htm>

Audiovisual Study Rooms

Rooms equipped with DVD, Blu-ray, VHS, and Laserdisc Players are available to faculty, students, and general patrons. These rooms may be self-booked in the Chinook Catalog, and keys must be checked out the Norlin Library Circulation Desk.

Rooms available to students:

<http://libraries.colorado.edu/search~S3/?rnorlin/rnorlin/1%2C2%2C3%2CB/frame&FF=rnorlin+study+rooms&1%2C%2C2>

Rooms available to faculty:

In-House Event Recording and Equipment Loans (Libraries Staff Only)

Audio/video recording, photography, sound system support, and production assistance for library functions:

<http://ucblibraries.colorado.edu/systems/mediaservices/guidelines.htm>

<http://libshares/functions/default.aspx>

Microform Reader/Printers and Scanning Workstations

Standard reader/printers and digital scanners for microfilm, microfiche, and opaque microcards are located in several library locations:

<http://ucblibraries.colorado.edu/about/copyservices.htm>

The digital microform scanners located in the Research and Instruction Department allow users to edit, save, and email microfilm, fiche, and opaque card documents to PDF, JPEG, and TIFF file formats. Media Services provides small group or one-on-one training upon request: 2-2816; michael.riberdy@colorado.edu

Contacts for media services and support:

Michael Riberdy, Media Services Coordinator
303-492-2816; Michael.Riberdy@Colorado.EDU

Media Services Office & Studio
303-735-2681; med@colorado.edu

When media services staff are unavailable, contact:
Libraries IT Department (HELP)
